

Anna McCarthy

front end
developer
&
graphic
designer

Anna Osborne McCarthy

Loyola New Orleans'
Software Development &
Coding Certificate
Program
June - August 2018

Built and designed responsive
webpages with core languages HTML
& CSS

Designed webpages quickly using
front-end frameworks like Bootstrap

Created web application frameworks
with
JavaScript

Prototyped database-driven apps

Deployed custom-built applications to
the web using cloud-based hosting

Understands the difference between
NoSQL and SQL-based databases,
with basic SQL management and
querying

Built my own APIs

Integrated third-party APIs into an
application and pull in data from
sources like Google Maps, Stripe, and
Facebook

Applied the crucial skill of domain
modeling resources and relationships
in database-backed applications
